## Puur Borduur

I am Suzan Beynon, a self taught textile artist from Amsterdam.

In 2021 I started creating modern embroidered artwork for on the wall. I was so taken by this that I quit my regular job at the publishing house I worked for and started focusing on embroidery.

New work arises naturally as I work and I get inspiration from everywhere: nature, photography, (interior) architecture, art. I make modern, often colorful textile art. The artworks I embroider arise organically, without a preconceived plan and directly from within myself. My work is abstract with graphic elements.

I work with cotton and wool and sometimes incorporate other materials into my work such as buttons, beads and shells. Each work is handmade made, is pure embroidery and can usually be hung in four different ways.

## Together

The work with the dark brown areas (left) I made first. When it was ready I made another work with the same basic colors but with a different, slightly lighter, color scheme. They fit well together.

Size: 45 x 92 cm per work.

## Beach

A vacation in Brittany inspired me to this work. There I found the shells that are incorporated in this work.

Size: 92,5 x 92,5 cm.

## Matrix

The frame inspired me to use these colors.

Size: 60 x 60 cm.

## Yellow & Blue

The yellow area in the middle was the starting point, and from there the colored divisions arose naturally as I worked.

Size: 95,5 x 93,5 cm.

## Birth

The first work I made which therefore has a special meaning for me.

Size: 60 x 60 cm.

# Purple

Purple is one of my favorite colors. The color represents strength, energy and creativity but is also seen as a symbol of spirituality, meditation and silence.

Size: 75,5 x 145,5 cm.

*Curious?*
